OCEAN VIEW

CEMETERY

KNOW ALL MEN BY THESE PRESENTS

That the Portland Mausoleum Company, a corporation duly organized and existing under and by virtue of the laws of the State of Oregon, does hereby make, publish and declare the annexed diagram to be a true and correct "Diagram of Ocean View Abbey Mausoleum", a 100 crypt building containing 92 crypts, to be used only for the entombment of the human dead of the Caucasian race and for funeral services.

The said Mausoleum is located on a tract of land known as block 29 of Ocean View Cemetery as shown on plat filed by the Cemetery Commission of the City of Astoria on the 11th day of March, 1917, and recorded in plat book 7, page 33 of the plat records of Clatsop County, Oregon.

In witness whereof the said Portland Mausoleum Company has, by a resolution passed by its Board of Directors, duly authorized these presents to be signed and executed and the corporate seal to be hereto affixed by its President and Secretary this 12th day of March, 1917.

Executed in the presence of
 E. T. Lundberg

Portland Mausoleum Company
 By *E. T. Lundberg* President
 Portland Mausoleum Company
 By *John A. Coan* Secretary

State of Oregon } ss
 County of Multnomah }

On this 12 day of March, 1917, appeared before me, a Notary Public in and for Oregon, John S. Bradley and Ralph A. Coan, to me personally known, who each being duly sworn, did say that he, John S. Bradley is President, and that he, Ralph A. Coan is Secretary of the Portland Mausoleum Company and that the seal affixed to said instrument is the corporate seal of said Corporation and that said instrument was signed and sealed in behalf of said Corporation for the use and purpose herein before stated. In testimony whereof, I have hereunto set my hand and fixed my Official seal the day and year just in this my certificate written

Louis V. Lundberg
 Notary Public in and for Oregon.
 My Commission expires Nov. 28, 1920.

11 April 2023

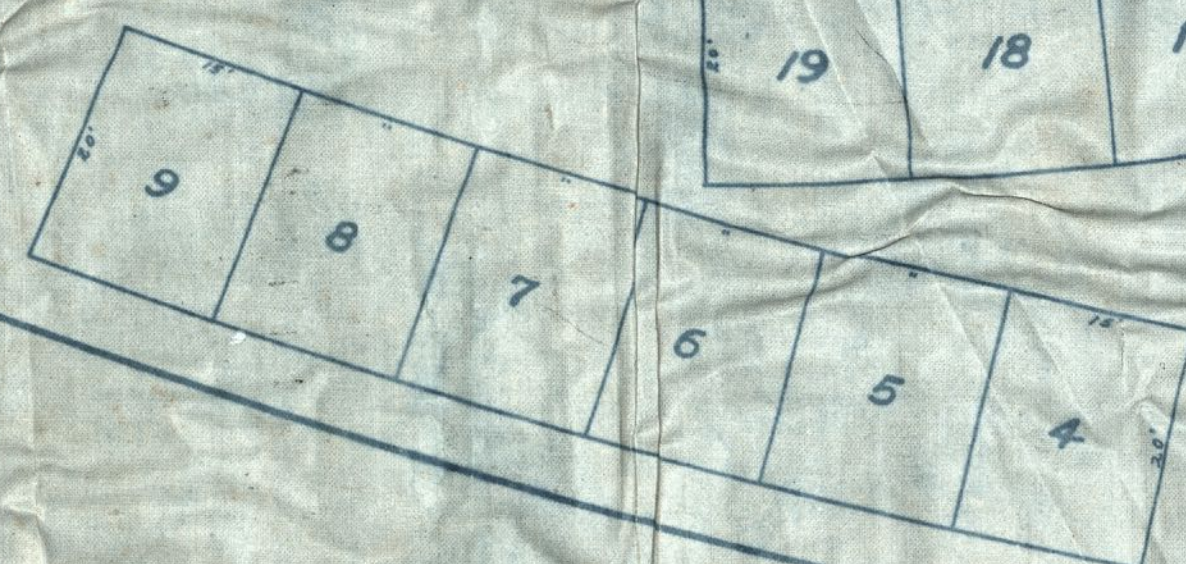

The first and second pages are of poor quality, paper was glued to the linen and shrinkage has occurred unevenly. Pressing of the document would have made for a less desirable effect. If the paper could be separated from the linen, then it could be pressed properly. It was resistant to being separated, the remaining pages were successfully pressed.

A large portion of this Plat Book was in extremely poor physical condition, having been stored in damp and dirty location and handled poorly over the decades. Pages were not laid flat before heavy cover was closed; hence pages were pressed with folds, repeatedly. I've left a couple of pages as examples of what pages looked like before pressing. This took nearly 15 hours to process.
